

100%
of the graduating Seniors
that have participated in
this program are pursuing
education in STEM fields.

Blue Crew Robotics

Mount Blue Campus

We are a small team of 23 students, based in rural Maine. We are working to expand STEM education in our district at the Middle and High School level. We wish to include you in our fundraising opportunities because we have such a small community to draw funds from. We appreciate you considering a sponsorship with us.
